UPVC Window and Doors:

Sliding Windows

UPVC Sliding windows add a traditional style and contemporary performance to a new home.

Sliding windows feature two sashes, with at least one sash sliding horizontally past another. They create a contemporary look while allowing in breezes from multiple directions.

— Sliding Windows

— Fixed windows

Fixed windows

Fixed windows in UPVC frames are a great way of bringing light and views into a space, improve energy efficiency and are affordable

Casement Windows

UPVC Casement Windows are available with a range of options to suit every home and budget. Simply have sashes that open out on special hinges that use friction to keep them open in the position you chose.

— Casement Windows

— French Windows

French Windows

Two fully opening sashes with a floating mullion, incorporating Warm Edge Spacer Bars, Sound Insulation & Excellent Thermal insulation properties

Sliding Doors

Classic good looks with a maximum glass area which optimizes visibility, making it a perfect choice for conservatories, balconies, porches or extensions.

— Sliding Doors

French Doors

Charming addition to any home or conservatory. The extensive opening allows unrestricted access to your home as well as maximum ventilation and practical entry into your garden.

French Doors

Single Leaf Doors

Single leaf door is suitable for domestic and light commercial use and is compatible with a wide range of hardware, making them a versatile choice. Suitable for both traditional and contemporary styling.

Single Leaf Doors

Double Leaf Doors

Double sash for larger clear openings. Available in swing or out swing option. Heavy duty hinge minimized deflection by wear out & possible to adjust vertically & horizontally the window. Multipoint locking mechanism for a tighter seal.

Double Leaf Doors

Aluminum Window Doors and Partition

Sliding Windows

Sliding Windows

Aluminium Sliding Window that can be double glazed. It is uniquely designed to carry a wide range of glass thickness for sound reduction. Best suited for most exposed locations, offered window is intricately manufactured in conformance with the set industry terms using optimal quality aluminum and latest techniques.

Fixed Windows

The basic function of a window is to admit daylight in acceptable and consistent quantities, while maintaining the ambient temperature inside the house

Fixed Windows

— Casement Windows

Aluminium Casement windows

Aluminium Casement Windows are the smart choice for any home. Combining a uniquely strong, durable and light material with a clean, ultra slim frame design allows an abundance of natural light to flood into home.

Combination Windows

An integration of sliding, casement and fixed window or two windows of the same type (like casement-casement) or different types (casement-slider or fixed-slider), combination window can be made available in a variety of sizes and designs as per your need.

— Combination Windows

— Sliding Doors

Sliding Doors

Aluminium sliding doors give you more glass and less frame which results in more light being let through. The rooms in your property will seem bigger, brighter and warmer.

Double Leaf Doors

Aluminium double leaf front doors will suit wider door openings. They consist of two door panels which swing outwards and meet in the centre when closed.

— Double Leaf Doors

— Toughened Glass Partition

Toughened Glass Partition

Glass partitioning is often used in offices, to split up working spaces. However it can also be used in the home - in kitchen, bathroom, or study spaces - therefore utilizing the most space and light available

Glass and Particle Board Partition

Made out of Aluminium Frames with glass panes inside or particle board mounted board fittings to make partitions in big halls or office cubicles
